
Play MP4 in Flow Player

Posted by sandeshsindiri - 2011/09/22 13:36

Hi,

I have play a mp4 video in ARI Sexy Light Box. I think, when I play it in ARI Sexy Light Box, it chooses Quicktime Player. How can make my mp4 files play in Flow Player in ARI Sexy Light Box?

Regards & Thanks
Sandesh Sindiri

Hello,

We can provide modified version of the extension which will play mp4 files in FlowPlayer.

Regards,
ARI Soft

Good day Admin,

I am interested as well in the Mp4 version of Ari Sexy Lightbox.

But also I'm a bit worried about something.
I lost my older username due of the site change.
How can I prove that I had bought this software?

Hello,

You can find notification mail about registration and order notification in your mailbox so we can restore access to "Member Area".

Regards,
ARI Soft
