
change the background color from transparent ?

Posted by mistan - 2011/10/09 05:53

Is there a way to change the background color to a different color from transparent during image loading/transition? My client does not like the see through during transition. ?? Thanks a bunch as usual.

Hello,

You can try to add the next CSS rule to a site template CSS file:

```
#SLB-Wrapper.loading #SLB-Contentido
{
  background: black !important;
}
```

but top of the lightbox remains transparent.

Regards,
ARI Soft

looks like it did not change by adding the code. ?
site here, the side bar on right.

Thanks.

Sorry. yeah, It works fine after clearing the cache.

Thanks.
