
Error Line 137 - How to fix?

Posted by alexmartin - 2011/10/29 03:42

I use Light Box Anywhere

In the page with Flickr gallery, there is a message:

Warning: unlink(public_html/cache/5184d1108e85e3cae0705fb06d1776ca.cache) : Permission denied in /public_html/modules/mod_arisexylightbox/includes/kernel/Flickr/phpFlickr5.php on line 137

How to fix it please?

Hello,

Check that /cache/ directory has writable permissions and clean this folder.
