css conflict with datatable and the button can not work

Posted by joyield - 2011/11/05 11:33

_____

1

i had buyed the two soft :ari smartcontent. and ari sexy lightbox.

first i install the smartcontent and apply the datatable in frontpage is well.

but when i install sexy lightbox and enble all the plugin,the in frontpage ,the datatable``css (jquery ui) is disapper,the css can`t work. then i disaple the sexy lightbox ,all is ok.

some conflict with two?

2\

another question.use sexylightbox, i successfully open a module in pop win,but in this pop win,the button can`t work.such the module is longin form.the submit "login" or "logout" can`t work.

_____

Hello,

Sorry for the delay. About your questions:

1. Download and upgrade "ARI Sexy Lightbox" module and if "ARI Sexy Lightbox Anywhere" and/or "ARI Sexy Thumbnails" plugins are used, update the plugin(s) too. It should resolve the problem.

2. We suppose this problem with login module implementation. Could you provide a link to a page where we can see described problem?

Regards,
ARI Soft

_____

thanks for your work.
i`ll redownload it and try.
-----
because i instll it on local host,so i cant`provide the link.i`ll try it again.
