## Lightbox disable my website

Posted by Nippegubbe - 2011/12/26 17:03

---

Today I installed Sexy lightbox and now I can't get to my website from eather front or backend. I have followed the read me file. I have Jommla! 1.7.2

Warning:

```
require_once(/home/web35735/domains/wedlund.se/public_html/modules/mod_arisexylightbox/includes/kernel/class.AriKernel.php) : failed to open stream: No such file or directory in /home/web35735/domains/wedlund.se/public_html/plugins/system/arisexythumbnails/arisexythumbnails.php on line 16
```

Fatal error: require\_once() : Failed opening required

```
'/home/web35735/domains/wedlund.se/public_html/modules/mod_arisexylightbox/includes/kernel/class.AriKernel.php' (include_path='.:usr/local/php5/lib/php') in /home/web35735/domains/wedlund.se/public_html/plugins/system/arisexythumbnails/arisexythumbnails.php on line 16
```

I tryed to install my backup but still I can't get to my website

Hello,

It seems the extension was installed incorrectly. Installation instructions can be found in readme.txt file in arisexylightbox\_unzip\_first.zip archive.

About the problem, login to your server by FTP and delete the next file:

```
/plugins/system/arisexythumbnails/arisexythumbnails.php
```

After this login to Joomla! backend, install "ARI Sexy Lightbox" module and then install necessary plugin(s) from extension's package.

Regards,  
ARI Soft
