Posted by EMERGELERT - 2012/01/30 08:01 Hi, I am new to the forum. I have read over numerous threads, but have not found the solution to my problem. I recently downloaded Ari Sexy Lightbox to integrate with Ari slider. I am not able to display youtube videos in the slider. Please advise. thank you. Re:YOUTUBE VIDEO NOT PLAYING IN LIGHTBOX Posted by admin - 2012/01/30 08:13 Hello. Do you mean "ARI Image Slider" or "ARI Slider" extension? If you mean "ARI Image Slider", could you provide a CSV file which is used by "ARI Image Slider" to associate images with YouTube videos? Could you also provide a link to a page where we can see a slider? Regards, **ARI Soft** Re:YOUTUBE VIDEO NOT PLAYING IN LIGHTBOX Posted by EMERGELERT - 2012/01/30 08:22 hi, I am using the Image Slider. This may sound dumb, but I thought i could just integrate the two, add in the url for the youtube video in the sexy lightbox remote content settlings, and it would play the video in the lightbox. I didnt know to associate a csv file. the website is www.askcharlesjohnson.com thank you Re:YOUTUBE VIDEO NOT PLAYING IN LIGHTBOX Posted by admin - 2012/01/30 08:39 Open "ARI Image Slider" module settings and see "Description" section please. It contains tutorial how to use the module and how to use an INI file to associate images with external links (it can be links to YouTube videos). In brief, if you want to integrate "ARI Image Slider" with "ARI Sexy Lightbox", install and enable "ARI Extensions" plugin (if you use J! 1.6+), install "ARI Sexy Lightbox" module, install, enable and configure "System - ARI Sexy Lightbox" plugin then set "Lightbox" integration" parameter in "ARI Image Slider" module settings to "ARI Sexy Lightbox", create ariimageslider.ini file in folder with images with the next content: image01.jpg="http://www.youtube.com/watch?v=WyA1dzfKywg" image02.jpg="http://www.youtube.com/watch?v=WyA1dzfKywg" Regards, ARI Soft

YOUTUBE VIDEO NOT PLAYING IN LIGHTBOX

thanks, I will read the tutorial, but I am still wondering why the Ari Sexy Lightbox has the option under remote content to input a url, which i did for youtube and simply have it play. When have Open on load clicked to yes, the youtube video plays. Is it possible just to have it play in the slider/lightbox area?? Thank you. Re:YOUTUBE VIDEO NOT PLAYING IN LIGHTBOX Posted by admin - 2012/01/31 14:45 "Remove content" option is used when the lightbox is used separately. When "ARI Image Slider" is integrated with "ARI Sexy Lightbox" extension, "System - ARI Sexy Lightbox" plugin is used and it doesn't provide "Remote content" option. Regards, **ARI Soft** Re:YOUTUBE VIDEO NOT PLAYING IN LIGHTBOX Posted by EMERGELERT - 2012/01/31 15:13 Ok. That's what I thought. I tried sexy lightbox by itself, but the video did not show in the module position I chose. But it did autoload when I load the page. PleAse advise. Thank you. _____ Re:YOUTUBE VIDEO NOT PLAYING IN LIGHTBOX Posted by admin - 2012/01/31 15:15 Could you provide a link to a page where you try to use the module and screenshot(s) of module settings page? no window pops up on the home page in the top position module to play the video. If I set the parameters to auto load

the video will play when the page pops up, but i need it to play in module position. thnks.

The extension shows a YouTube video into the lightbox if a user clicks by a text or an image. It doesn't embed YouTube videos directly into a page.
