## Links won't display in lightbox anymore

Posted by thisispete - 2012/02/09 05:46

---

Hi

I'm attempting to add YouTube videos and have them display as a lightbox.

It was working until today I went to add some more and they just won't display in the lightbox, they go directly to the YouTube URL. It seems like its not seeing the rel=sexylightbox part of the code.

My code is:

I've even used the default from the example documentation and the lightbox won't display.

I've reinstalled the plugins and modules to no effect. Any ideas?

Hello,

Provide a link to a page where we can see described problem.

Hi

As this is for registered members I've created a test account.

user: test  
password:test

URL is <http://www.sexywomenworkouts.com.au/index.php/test>

Or using the menu, goto exercises -> without equipment -> 1 point

Open module settings page and all settings page of the plugins related to sexy lightbox, set "Include jQuery" and "jQuery noConflict" parameters to "Yes" and re-save settings. It should help.
