## new installation
Posted by helloagain - 2012/02/09 15:04

_____

hello, i just purchased last night, cannot see the lightbox under components or anywhere except module manager, seems to be installed correctly.  Do I need more plugins?  Running Joomla 1.5
and Virtue Mart.

_____

Hello,

"ARI Sexy Lightbox" is not a component. It contains "ARI Sexy Lightbox" module and several plugins for different purposes. A short description can be found in readme.txt file from extension's archive. Detailed help can be found in "Description" field on module/plugin settings page. If you want to use it with VirtueMart, install "ARI Sexy Lightbox" module and "ARI Sexy Links" plugin. If you describe in more details for what do you want to use the lightbox, we will help to configure the extension.

Regards,
ARI Soft

_____

Sorry, what "components tag" you mean? Could you provide an image where we can see it?

"ARI Sexy Links" plugin can be found in arisexylightbox_unzip_first.zip archive. Unzip it and read readme.txt file please.

Regards,
ARI Soft

_____

Sorry, I meant under the components "tab", not tag in your Joomla Demo. The extensions don't show up anywhere on my backend. I loaded all plugins in the zip file "arisexylightbox_unzip_first.zip" that would load into my site. Only the extension file with ariextensions.php would not load.

_____

"ARI Extensions" plugin is requires only for Joomla! 1.6+. This fact is described in readme.txt file from extension's archive. You can find "ARI Sexy Lightbox" module on "Extensions -> Module Manager" page on backend and related plugins on "Extensions -> Plugin Manager" page.

Regards,
ARI Soft
