
Add a Link to One Photo

Posted by jackibar - 2012/02/20 22:15

My client wants me to add a link to just 1 of the photos on my page at:

<http://sidewalkministries.com/index.php/about-sidewalk-ministries>

It is the very last photo that will need to link to a video... How do I do this?!

Hello,

Download and upgrade "ARI Sexy Lightbox" module. After this add "LightboxLink" column to the CSV file which is used for the image gallery and add a link to a video to this column for necessary image.

Regards,
ARI Soft
