
YouTube video continues to play in Safarri Browser

Posted by brunerandcompany - 2012/03/22 20:19

Hi there.

When you click on the "x" to close the video or click in the gray area of the screen (to close), the YouTube video continues to play. The lightbox goes away, but the video continues.

I'm experiencing this problem with Safari (on the PC and on Mac, iPad, iPhone).

Here is a sample (click link below and then choose "2012 Collection of Homes" video):

<http://72.3.205.114/watch-videos>

Hoping you can help.... thanks in advance!

Hello,

Try to set "Close duration" parameter to 1

Regards,
ARI Soft
