ari sexy light box any where do not show up but module working in joomla 2.5.
I have already installed 'System - ARI Extensions'.

I have used the following code

```
{arisexylightbox activeType="picasa" user="chakkara234" album="Trsha" }{/arisexylightbox}
```

Hello,

Remove space between album="Trsha" and } symbol.

It works fine on our test server. Could you provide a link to a page where we can see the problem and a temporary access to your J! backend by email?

It doesn't require any specific settings. Could you upload your site to an online server so we can investigate an issue?

PS: Check PHP error log, probably it contain error(s) which helps to investigate the problem.
