
How can I hide the name ARTIKELEN in the Lightbox

Posted by Webmiep - 2012/04/22 21:24

Hello,

I am using ARI sexy Lightbox to show Joomla articles in a dutch website. When the lightbox opens above the text comes the word ARTIKELEN Is this possible to hide? And where can I do that?

Thanks for your help.

Kind regards Webmiep http://www.ari-soft.com/images/fbfiles/images/vraag_FORUM.png

Hello,

This wors is added by Joomla!, you can read about it here. We can help to remove it if you provide a temporary access to your J! backend by email and specify where we can see a problem.

Regards,
ARI Soft

Hello,

Thanks a lot for your answer.

I solved the problem by doing this:

"Here is the easiest fix to remove Articles from page headings:

```
/public_html/language/en-GB/en-GB.ini  
JGLOBAL_ARTICLES="Articles"
```

change to JGLOBAL_ARTICLES=""

or you can put whatever word(s) you want to appear or not appear."
Found this possibility in another forum.

Kind regards Webmiep
