
ARI Sexy Lightbox - Module - Popup issue

Posted by stephenbrust - 2012/04/28 02:27

Help! I have a Joomla 1.5 site we are using ARI Sexy Lightbox for video on and it works great. I am building a second but it is Joomla 2.5.4 using the same set up as the 1.5 site. When I click on the play button it doesn't pop up, it goes to the you tube site. Everything is exactly the same in the set up. What am I doing wrong? or how can I fix this?

Videos are on the right hand side...

1.5 site <http://northamericantree.com/nats/>

2.5.4 site <http://174.121.135.189/~nats/>

Thank you in advance,
Stephen

Hello,

What browser do you use? We have checked it in FireFox browser and the extension works fine.

Regards,
ARI Soft
