
Any image is linked to ari without asking...

Posted by mauvire - 2012/05/12 09:56

Hello,

since I've installed arisexilghtbox (buy) any images, anywhere in the site become a link, with clicking it opens the images in a new window without asking for it.

For ex:

Backend article

F5 Frontend same article (vieww source)

This is visible on : systemicwisdom.com watch also soucre to see the different on line 94

Using sexylightbox on the following pages, and this works well reizen

Can anyone help me? Thanks a lot

Find the solution:... if anyone need it...

disable plugin "ari sexy thumbnails" Problem solved. :)
