
Plugin With Image Issue

Posted by aaroninbna - 2012/05/22 04:34

The plugin works good by itself in an article, but as soon as I place another image, the lightbox forwards me a the link in a new page.

No problem when adding any fonts, but as soon as I add a image, there is a conflict.

Any suggestions?

Thank you all in advance.

Take Care.

Aaron

Hello,

Where we can see the problem and what plugin code do you use?

Regards,

ARI Soft

Thank you for the quick reply.

You can compare the two articles from...

tacsupport.com under the Our Tutorials Menu item or from here...

With Image

Without Image

Take Care,

Try to temporary disable "ARI Sexy Thumbnails" plugin.
