
Sexy Light Box All Squished

Posted by codymham - 2012/06/06 21:29

Love this extension but am having a problem. The box seems to just squish into a single point, like a black hole. I can appreciate the awesomeness of how cool that sounds, and it is pretty tight, but it doesn't show the video I'm trying to display. You can see my problem here by going to <http://sunsetbayacademy.com> and clicking on the video on the left (where the three videos are side by side above the main article content). Maybe has something to do with JQuery? Thanks in advance for help.

Could you provide a temporary access to your J! backend by email so we can investigate the problem?
