Hello

In my site [http://www.ecinsa.com/webnueva/index.php?option=com\\_content&view=article&id=42&Itemid=2](http://www.ecinsa.com/webnueva/index.php?option=com_content&view=article&id=42&Itemid=2) when navigate for content in tabs, only work in first tab, in second, three, etc., not work

Not charge module content when click in imagen in bottom of page

I pay for this system and I need help with this problem.

Thanks

Hello,

What browser do you use? We have checked it in FireFox and the extension works fine on the first and the second tab when we click yellow button at the bottom.
