
description not showing up in .csv

Posted by tigs - 2012/06/10 19:07

I have looked at all the posts that are relevant to this question.

I am unable to get the description part of the .csv to show in the lightbox.

i attach the .csv. and i an image of what isn't showing if that makes sense. http://www.ari-soft.com/images/fbfiles/images/description_not_showing.png <http://www.ari-soft.com/images/fbfiles/files/test2.zip>

Hello,

"Description" parameter is not supported by the lightbox. See supported fields here.

Regards,
ARI Soft

well you better than you thought you were, as this works in the caption template area. {\$Title}{\$Description}
