## how to change the border color

Posted by zehnmark - 2012/06/12 16:01

---

Hi,  
how can i change the border-color of theme: white

Code is: border-left-color: rgb(255, 255, 255); border-right-color: rgb(255, 255, 255)

Don't want to have white - i want to have: #C3A571

thank you and best regards  
mark

Using: Version 1.9.1 and Joomla 2.5.4

Hello,

If you want to change left and right borders, add the next CSS rule to a site template CSS file:

```
#SLB-Contenido
{
border-left-color: #C3A571 !important;
border-right-color: #C3A571 !important;
}
```

If you want to change top and bottom borders, it requires to modify bgSexy.gif image file. For white theme you can find it in \modules\mod\_arisexylightbox\includes\js\sexyimages\white\ folder.

Regards,  
ARI Soft
