The BloseButton area smaller?

Posted by Macjohn - 2012/08/08 14:18

_____

Hey!

I was trying to tweak the White layout. I removed the words (Close, Next, and Prev) but left the symbols.
That worked just fine.

But now I would like to make the CloseButten area (with the rounded lower left corner) smaller, to match the fact that there is only an X (an no words).

See att:
 http://www.ari-soft.com/images/fbfiles/images/Sk_rmbillede_2012_08_08_kl.png

Would that be possible?

(I went through sexylightbox.css - but couldnt seem to figure it out...)

_____

Hello,

It requires to modify lightbox background image. See
\modules\mod_arisexylightbox\includes\js\sexyimages\white\bgSexy.gif and
\modules\mod_arisexylightbox\includes\js\sexyimages\white\bgSexy.png images.

Regards,
ARI Soft

Thank you SO much!

Worked like a charm. (Had to tweak a little on buttons.png aswell - becase of the white background on the buttons) - But after that: Happy! :-)

Thx, for exellent support!

John
