Image as link to vimeo video

Posted by timtenn - 2012/08/20 19:59

_____

ON this page:
http://logochairs.com/j25cms/index.php/component/content/article/45-static-utility-pages/218-videos#

I would like to use the image as the link to the vimeo video that should play in the lightbox.

Can you see what I am doing wrong? For some reason it wants to show the picture in the lightbox instead of the video in the lightbox.

_____

Hello,

What code do you use?

Regards,
ARI Soft

_____

If you don't use "System - ARI Thumbnails" plugin, try to disable it.

Regards,
ARI Soft

_____

Thank you. That fixed that problem.

But I am having a problem with the top portion of the lightbox being white, despite having #000000 in the "Background" setting of the plugin.

Same link as above, just click the large image.
