
where to place images

Posted by ihscsigns - 2010/01/29 13:42

Hi new to joomla and love the look of this lightbox.

where do i put the images ?

Please help!!!

Hello,

Could you describe your needs? Do you want to show images from specific folder(s)? If yes, then open 'Extensions->Module Manager->ARI Sexy Lightbox' page, configure 'Main Parameters', choose 'Image Gallery' in 'Choose type' parameter and specify gallery parameters. You can find instruction how to use the module in 'Description' field on the module settings page. If you need something another or have additional questions, feel free to ask this and we'll help you.

Regards,
ARI Soft

hi and firstly many thanks for your quick reply.

all i want to do is add photos to the lightbox as per the car sample shown in the demo, so u click on one pic and then you scroll through an image at a time.

there is no "image gallery" option on the module edit page.

only these:

imglist

flickr

icontent

rcontent

module

also i cannot find a description on the module settings page? do you mean module "edit" page, if so i am unable to see it.

many thanks

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue? The module settings page should look like on our demo site, see the bottom of page 'Module backend' section.

Regards,
ARI Soft
