
Manually make galleries

Posted by bigbroantonio - 2010/02/18 14:11

Can you tell me the syntax for inserting a gallery in a page without depending on the module?

Thanks

We are working on adding this possibility and we'll release new version within 24 hours. It also will contain parameter for showing lightbox only once.

Hello,

New version of 'ARI Sexy Lightbox' is available. You can download it in 'Member Area' on our site. It contains new 'System - ARI Sexy Lightbox Anywhere' plugin instead of 'Content - ARI Sexy Lightbox' plugin. New plugin provides ability for using 'ARI Sexy Lightbox' in any Joomla! content, not only in articles. It also contain documentation how to display images from folder(s) without using 'ARI Sexy Lightbox' module and now extension can automatically open lightbox only once.

Regards,
ARI Soft
