Insert html element in Lightbox code

Posted by oguenetwork - 2012/10/22 12:46

_____

Hi,

I'm trying to insert a link in the top of lightbox. I had success doing exatly what I want editing with firebug (with Firefox), but when I tried to edit the file in core of plugin I didn't find the right one.

Could you help me pointing me the right direction?

Follow an image that show what I want to be more clear.

Thanks so much guys!!! http://www.ari-soft.com/images/fbfiles/images/exemplo.jpg

Hello,

Do you use "ARI Sexy Lightbox" or "ARI Sexy Lightbox Lite"?

Check your mail.

About differences between "ARI Sexy Lightbox Lite" and "ARI Sexy Lightbox". "ARI Sexy Lightbox Lite" is a simple content plugin. "ARI Sexy Lightbox" contains the module and several plugins, it can create image galleries for image from specific folder(s) on your server, show Flickr and Picasa photos, load YouTube, Vimeo and other videos. You can see "ARI Sexy Lightbox" in action on our demo site. Documentation for the extension is available here.
