## White border around content

Posted by Gardenorm - 2012/11/19 16:26

---

Hi,  
I would like the background colour of the sexy lightbox contents to match my web site background.  
I have set the colour of the article and of the background in the lightbox plugin but there is a white border around the article.  
Does any one know what is causing this and how do I remove it?  
You can see the pop up box here [aegeanescapes.com](http://aegeanescapes.com)  
Link is "2013 price list"

Many thanks

=====

Margins are defined in site template styles. Add the following CSS rule to a site template CSS file:

```
html body.contentpane
{
  margin:0;
}
```

Hi,

I am trying to do the same (though opposite). I would like to increase the margin between text and lightbox border.

I have tried to alter the 'css/template.css' file as follows but with no effect (see also attached image).

```
html, body {
  line-height: 1.5;
  margin: 20;
  padding: 0;
}
```

Does anyone have a solution?

Or is this a question for my template provider?

Hi,  
Henrik [http://www.ari-soft.com/images/fbfiles/images/would\\_like\\_to\\_increase\\_margin\\_between\\_text\\_and\\_lightbox\\_border.png](http://www.ari-soft.com/images/fbfiles/images/would_like_to_increase_margin_between_text_and_lightbox_border.png)

Hello,

Could you provide a link to a page where we can see the problem?

Hi,

Yes please. It is:

[http://aarhusglobal.dk/ekstra\\_joomlainstallationer/ogelea/index.php](http://aarhusglobal.dk/ekstra_joomlainstallationer/ogelea/index.php)

Hi,

---

Add the following code to component.php file in site template folder between `<body>` and `</body>` tags:

```
BODY {padding: 15px;}
```

Thanks a lot.

I have managed it (and I am experimenting with different margin sizes).

Have a VERY nice day!  
Henrik
