
Conflict Yootheme WidgetKit - ARI Sexy Lightbox

Posted by antonvoyl - 2012/11/28 10:14

Dear all,
I'm using a Yootheme template and Yootheme Widgetkit.

As soon as I enable the System - ARI Sexy Lightbox module in Joomla, the Widgetkits stop working (they don't show anymore).

Are you aware of this problem? Can you help me?

Many thanks,

Best regards,

Hello,

Could you provide a link to a page where we can see the problem?

Yes of course:

<http://www.saint-malo-rama.com>

The main slideshow on the frontpage is a Yootheme Widgetkit. As soon as I enable ARI Sexy Lighbox, this slideshow disappears.

I can give you access to the admin section. Please give me an e-mail address where I can send the ID/password.

Thanks.
