
YouTube overlay Sexy Lightbox

Posted by scottmiranto - 2013/01/23 18:14

I'm running into an issue with the Sexy Lightbox plugin.

In one position, I have embedded a clip from YouTube. In the position below this, I have used coding to enable the Sexy Lightbox plugin. When you click on the source image to open the Lightbox, the YouTube video still sits on top of the Lightbox.

Suggestions? <http://www.ari-soft.com/images/fbfiles/images/Capture-ffca6288b600532c0f13ffc203d02743.PNG>

Hello,

What code do you use to embed YouTube video? Where we can see the problem?

This problem with code which you use to embed YouTube video. Add wmode=transparent attribute to video link. It will look like:

<https://www.youtube-nocookie.com/embed/UmM9qzfzhhw?rel=0&wmode=transparent>

instead of:

<https://www.youtube-nocookie.com/embed/UmM9qzfzhhw?rel=0>
