White border when showing youtube video

Posted by dcroonen - 2013/01/31 08:42

_____

When showing a youtube video in a sexy lightbox everything works fine, except for the fact that there an ugly white border at the top of the lightbox (see screenshot). This despite the fact that I'm using the black theme.

When showing images this isn't happening.

Anybody any ideas where this white top border comes from and how to remove it?

Thanks in advance.

Greetings
Davy Croonen http://www.ari-soft.com/images/fbfiles/images/scrnsht.png

_____

Hello,

Do you use plugin ("ARI Sexy Lightbox" or "ARI Sexy Lightbox Anywhere") or the module?

Regards,
ARI Soft

_____

Thanks for the quick responce.

It's the ARI Sexy Lightbox plugin version 1.8.33 that's used or at least I think. The module ARI Sexy Lightbox version 1.8.39 is also installed, but if I disable the plugin I will be redirected to the youtube site. The joomla version I use is 2.5.8 and I inserted the following code

Filmpje

directly into an article using html view.

Regards

Davy
