
Images Column in Picasa

Posted by gavara - 2013/02/14 00:06

Hello i use sexylightbox to insert picasa album. I want put some random images in a raw. I use count 5 images but it show me in two raw. and i have space between photo and photo in first raw.
how can i use more images in a raw?
thanks

Hello,

Could you provide a link to a page where we can see the images?

Regards,
ARI Soft

Add the following CSS rule to a site template CSS file:

```
TABLE.asexy-table
{
    width: auto;
}
```

It seems this problem with Joomla! cache. Clean Joomla! cache and try again.

You can open cached CSS file into a browser:

http://www.sanmarcocampello.es/templates/gk_restaurant/css/l.template.css.pagespeed.cf.Y0BVNXTh7k.css

and see it doesn't contain the CSS rule.

Re:Images Column in Picasa

Posted by admin - 2013/02/16 21:03

It occurs because "Simple gallery -> Items per row" parameter is set to 3.

Regards,
ARI Soft

i don't use a module i use a plugin {arisexylightbox activeType="picasa" user="100559838186911089334" album="SanMarco" sortBy="random" count="5" theme="fancy"}/{/arisexylightbox}

Re:Images Column in Picasa

Posted by admin - 2013/02/17 12:05

Add itemCount="5" parameter to {arisexylightbox} tag.

Regards,
ARI Soft

Re:Images Column in Picasa

Posted by gavara - 2013/02/17 19:41

ok i have do it. sorry but its is impossible to put 5 image in a row

i use this code now

```
{arisexylightbox activeType="picasa" user="100559838186911089334" album="SanMarco" sortBy="random"
ItemCount="5" theme="fancy"}/{/arisexylightbox}
```

and i see all photo albums three for row.

i have add count="5" i have see 5 photo of album but three for row.

Re:Images Column in Picasa

Posted by admin - 2013/02/17 19:48

"count" and "itemCount" are two different parameters. "count" is used to specify how much images will be selected from an album. "itemCount" is used to specify how much images will be shown per row.

If you want to show select only 5 images from the album and show 5 images per row, use the following plugin code:

```
{arisexylightbox activeType="picasa" user="100559838186911089334" album="SanMarco" sortBy="random" count="5"
itemCount="5" theme="fancy"}/{/arisexylightbox}
```

This code works fine on our test server. If it doesn't work for you, could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,

ARI Soft

Thanks for your patience and support. now works ok.
Congratulations on the plugin
