_____

Joomla 2.5.9, I installed the ARI Sexy Lightbox,and when I hit saved from the plugin, both front and admin gets: HTTP Error 500 (Internal Server Error):

Please asking for help. I know the site is there, not sure what file is the cause.

thanks!

_____

this was the problem:

system/arisexylightboxanywhere/arisexylightboxanywhere/kernel/Module

file name: class.ModuleHelper.php

line 7

So I just went into phpMyAdmin and changed the state from 1 to 0 and now the site is fully backup.... :)

BTW: I did send you my receipt number, but I fixed the problem.... thanks
