
Picasa Gallery Showing {\$EmptyText}

Posted by tylerdrobinson - 2013/05/07 22:08

I'm running ARI Sexy Lightbox version 1.8.47, and all of a sudden, my Picasa Gallery Module stopped showing the photos. In place of the photos, I'm getting {\$emptyText}.

I've validated that all Plugins and Modules are enabled.

You can see the result at the following address:

Any help on this would be greatly appreciated. Our users are already calling us about this issue.

Hello,

Could you send screenshot(s) of module settings page if you use "ARI Sexy Lightbox" module or plugin code if you use "System - ARI Sexy Lightbox Anywhere" plugin by email?

Regards,
ARI Soft
