Hey there.

Since your last support there were no changes on the plugins or modules.

i just found out, in ie10 the lightbox window is flying away out of the window. heres a screenshot:

is there a way to correct this?

p.s. i reactived your backend account - if u need it.

Hello,

Add the following CSS rule to a site template CSS file:

HTML BODY {height:auto;}

Regards,
ARI Soft
