
Autoplay youtube video with sexy light box

Posted by stephenbrust - 2013/08/07 23:22

Please can someone help, I want the video to pop-up and auto play. It pops up but no autoplay.

I have this script Jim Codington, DVM on our site here The Country Vet

How can I get the video to autoplay when the link is clicked. Click on Dr Jim's name to see. I have tried entering autoplay=1" but it doesn't start.

Any help is appreciated

Thanks,
Stephen

Hello,

Use the following HTML code:

Jim Codington, DVM

Regards,
ARI Soft
