Hello,

Sorry, but we didn't see this error on this page. Could you check, this is correct link?

Hi

Thank you for your reply, yes it is ok now, the error was coming beacuse of 2 images but I don't know why as both images were jpg.

I am not getting any error in localhost with same images but getting error when i put same images on hosting server.

Anyway Finally I have reomved those 2 pictures.

Thanks & Regards

Sandeep.

Hello,

Maybe these 2 images were corrupted during movement to production server.
