## sexy lightbox for \"remote content\"

Posted by shulbert - 2013/12/07 16:05

---

when i create a module and choose type as "Remote Content" to show a YouTube vid the interface doesn't change so i can enter my parameters as shown in the instructions/documentation - what am i doing wrong, where do i enter URL, CSS and sizing - thanks - steve

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem? It can be a javascript conflict.

Regards,  
ARI Soft
