Insert video FLV/MP4 in a Joomla article

Posted by prince25 - 2014/01/12 17:30

_____

Hi,

i have bought ARI Sexy LightBox.

I would insert in a Joomla article my FLV/MP4 video.

The video is in the main folder "videos".

How Must I do? what syntax text must i use?

i would also have an icon of the video to click on.

thanks a lot.

_____

Hello,

You can use System - ARI Sexy Lightbox Anywhere plugin or System - ARI Sexy Lightbox plugin or ARI Sexy Lightbox module.

Regards,

ARI Soft

thanks for the answer.

can you write me the sintax text in order to insert video and create a popup image of the video?

my video is in a folder and i haven't an url.

thanks

_____

For example for "ARI Sexy Lightbox Anywhere" plugin:

{arisexylightbox activeType="rcontent" width="792" height="294" url="http://www.domain.com/video/my_video.flv" title="Video"}

{/arisexylightbox}

Where LINK_TO_IMAGE is a link to an image.

Regards,

ARI Soft

Hi,
i have used your code with my image and video:

{arisexylightbox activeType="rcontent" width="792" height="294"
url="http://www.aamisa.org/images/videos/aamisa_Youtube.flv" title="Video"}

{/arisexylightbox}

but when i click on the image i received this error:

200, Stream not found, NetStream.Play.StreamNotFound, clip: '
'http://www.aamisa.org/images/videos/aamisa_YOUTUBE.flv''

my site: http://www.aamisa.org/index.php/tutte-le-notizie/104-festa-dell-albero-2012

and i would know what kinds of videos (mp4, flv, f4v...) are supported. thanks

sorry now my site works.
how can i resolve this error?

 200, Stream not found, NetStream.Play.StreamNotFound, clip: ' 'www.aamisa.org/images/videos/aamisa_YOUTUBE.flv''

_____

http://www.aamisa.org/images/videos/aamisa_Youtube.flv file doesn't exist. You can see it if try to load the file directly
into a browser.

Regards,
ARI Soft

it's very strange, because i have loaded this file in this directory.
in fact at this link http://www.aamisa.org/images/videos/ you can see the content of directort and there is also this video.
how must i do in order to work video?

The folder contains aamisa _YOUTUBE.flv file (it contains the space and YOUTUBE in uppercase), it is not the same as aamisa_Youtube.flv file.

Regards,
ARI Soft

oh.it's true. thanks.
but why if i insert a f4v file i receive a request of download? f4v isn't supported?

_____

The extension supports .flv, .mp4 and .mov video formats. It can also show YouTube and Vimeo videos.

Regards,
ARI Soft
