Hello,  
I installed ARI Sexy Lightbox, and all went well. I wanted to post an article in lightbox and it works like a normal link.

What should I do.

Best regards and thank you

Hello,

Could you provide a link to a page where the problem occurs?

This problem with a 3rd party extension which adds the following wrong code to Joomla! javascript section:

JUTABS\_ADD\_SCRIPT\_DECLARATION\_HERE

and it prevents execution of all javascript code on the page (not only "ARI Sexy Lightbox" javascript code). You can see it in browser's error console or if open HTML source of the page.
