
Container CSS class

Posted by darrensvideo - 2014/03/16 21:03

Hi,

I would like to ask if I can change the mouse over effect in the ARI gallery thumbnails by adding any custom CSS to the following area, *Container CSS class?

Preferably an opacity or brightness change and possibly a slight zoom effect.

Thank you,

Darren

Hello,

You can add the following CSS rule to a site template CSS file if want to change opacity on mouse over:

```
TABLE.asexy-table A:hover
```

```
{  
  opacity: 0.5;  
}
```

Regards,

ARI Soft

Hi ARI,

The instructions you gave worked very well and this ads so many features to an already great product. I appreciate your knowledge and help with this very much.

Thank you,

Darren
