
no space between thumbs

Posted by plooney - 2010/06/16 09:26

Hi. I want realize a wallphotos with your module (or plugin...) and i need no pixels (no space) between thumbs. Where i can modify code for to obtain this?

Thank you for your support and, please, forgive my terrificant english!

Hello,

You can do the following:

1. Set 'Simple Gallery -> Container CSS class' parameter in module settings to 'thumb_table' for example.
2. Add the following CSS rule to your template CSS file:

```
TABLE.thumb_table
{
    width: auto;
}
```

or if you can wait several hours, we can update the extension that you can specify table parameters into module settings.

Regards,
ARI Soft
