How to remove the word \"Articles\"

Posted by jimcapraro - 2014/03/29 22:37

_____

I am using the ari sexy lightbox module to display an article that contains an announcement that auto loads on the home page. In the upper left corner of the lightbox is the word "Articles" in headline style. I would like to remove it or replace it with the Announcement. How do I do this?

_____

Hello,

"Articles" title is added by Joomla! You can read how to remove it here or change JGLOBAL_ARTICLES="Articles" message in \language\en-GB\en-GB.ini file.

Regards,
ARI Soft
