
Special letters showed as square in caption

Posted by geertf - 2014/05/07 09:48

Good morning,

IÂ´m using picture gallery in some articles on my site. IÂ´m using an csv to get the captions under the pictures.

This is working pretty well except that some letters like Ã£, Ã“ Â´D are not showed.

I assume that it has to do something with the csv file. But what??

Hello,

Save CSV file in UTF-8 encoding.

Hi,

I have same problems with ARI Datatables in combination with Lightbox. I do not use CSV, but SQL. What can I do?

Hello,

Could you send a link to a page where we can see the problem and screenshot(s) of "ARI Data Tables" module settings page by email?

Regards,
ARI Soft

Try now. We set "SQL -> Charset name" parameter to UTF8 value.
