Change Lightbox-Layout
Posted by freakmac5 - 2014/07/02 06:55

_____

Hello,

is it possible to change the layout of the lightbox to the layout of "ARI Fancybox"?
I would like to have the nice and clear minimal layout, but I need the features of "Sexy Lightbox".

Regards,
Alex

_____

Hello,

The extension doesn't support this ability. You can choose one of available theme in module/plugin settings page.

Regards,
ARI Soft
