How i can remove the page-header

Posted by juanico - 2014/07/07 12:48

_____

My code is:
{arisexylightbox activeType="article" id="137" class="link-button button-dark" width="70%" height="70%"} Comprar ahora {/arisexylightbox}

The article contain inside a contact form, but the problem is the page-header class, always is visible. All the options of the article are off.

How i can remove this. I need the class "page-header" visible in my css.

Best regards

_____

This title is added by Joomla!

You can open \language\en-GB\en-GB.ini file and replace the following text:

JGLOBAL_ARTICLES="Articles"

with the following one:

JGLOBAL_ARTICLES=""

Regards,
ARI Soft
