
Sexy Lightbox integration does not working

Posted by ha5ao - 2014/08/09 21:05

Hi,

I set up the carousel properly and it is working fine. However the Sexy Lightbox integration does not working for me. The system plugin is enabled. What I missed?

There is an another issue is with the Sexy Lightbox module. I can not set up the parameters because the set-up window displayed with no layout on the admin side. Help needed.

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem? It seems the extension was installed incorrectly.

Regards,
ARI Soft
