
Ipad / Iphone scroll

Posted by johanmeer - 2014/09/09 09:56

Hello All,

I'm using the ARI Sexy Lightbox Anywhere plugin, but i cannot scroll within the lightbox with ipad / iphone.

The code that i'm using is:

```
{arisexylightbox activeType="article" width="800" height="650" id="162" title="" }Title{/arisexylightbox}
```

Can anyone help me?

Hello,

Download and upgrade the module. After this clean browser's cache. It should help.

Regards,
ARI Soft

Hello,

Thank you for the quick respons, can you also tell me what you've changed? because i've changed the code, updating it would ruin my design now.

Kind regards

We updated \modules\mod_arisexylightbox\includes\js\jquery.sexylightbox.min.js and \modules\mod_arisexylightbox\includes\js\sexylightbox.css files.

Regards,
ARI Soft

Thanks for the quick response, is this done later than last week monday? on that day i've downloaded it.

Kind regards
