mp4 video doesn\'t work on Android tablet

Posted by Marsm - 2015/05/27 18:27

_____

Hi,

after updating from version 1.11.3 to 1.11.5, mp4 video stopped working on my Android tablet (Samsung galaxy tab 4 (android version 4.4.2.)).

Clich here (click on the first camera picture) for the video with arisexylightbox version 1.11.3,

Clich here (click on the first camera picture) for the video with arisexylightbox version 1.11.5.

The first one is working on my tablet, the second one doesn't.

Any idea how to get the second one working?

Thanks,
Marsm

_____

Hello,

Try to copy /modules/mod_arisexylightbox/includes/js/jquery.sexylightbox.min.js file from server where v. 1.11.3 is installed to server where v. 1.11.5 is installed and clean browser's cache.

Regards,
ARI Soft
