Hello,

What exactly doesn't work? Where we can see the problem?

Regards,
ARI Soft

_____

Set "Include jQuery" parameter to "Yes" and "Load jQuery method" parameter to "Local copy" in module/plugins settings.

Regards,
ARI Soft

_____

Hello,

Check that you use the latest version of the extension and "System - ARI Extensions" plugin is installed and enabled.

Regards,
ARI Soft

_____

Is it not possible to save parameters on module settings page? Could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

_____

As we wrote previously, install the latest version of "ARI Sexy Lightbox" module. If you have any problem with it, we can do it if you provide a temporary access to your Joomla! backend by email.

Regards,
ARI Soft

_____

It is not the latest version of the extension. Download the latest version in Member Area and update the module (install via Joomla! installation page).

Regards,
ARI Soft
