Admin Tools blocking images
Posted by vrtaak - 2016/10/14 12:42

_____

Hi, I just installed Akeeba Admin Tools and generated new .htaccess file. All images are no longer displayed. When I turn off Ari Sexy thumbnail plugin, the images are visible, but lightbox is not working. I have loaded jQuery method Google CDN, version 1.8.2.
When I delete .htaccess, images are working.
How can I enable this plugin? Somewhere in .htaccess?
Thank you

Hello,

Is it possible to see the problem?

Regards,
ARI Soft

_____

Yes, here it is http://www.vratislavhorcik.cz/

I am trying to solve it by troubleshooter page of Admin Tools, but it does not work...
https://www.akeebabackup.com/documentation/troubleshooter/athtaccessexceptions.html

It is solved, from Admin Tools helpdesk told me, that I have put cache folder in to allowed exceptions in the settings of the Admin Tools.
They told "Your plugin is storing files in the cache folder. That is a bad thing, contrary to Joomla!'s best practicies."
thank you
