
Backend - Error decoding JSON data: Syntax error

Posted by uripress - 2016/10/26 10:02

When i open the plugin "System - ARI Sexy Lightbox Anywhere" oder any ari-sexy-lightbox-module i get the error:
"Error decoding JSON data: Syntax error"
<http://i.imgur.com/hkkbqTt.jpg>

Update to ARI Sexy Lightbox v. 1.11.8 did not fix.

//edit: joomla 3.6.3. an 3.6.4.

//edit2: story above is php 5.6 - update to php7 brings: "Error decoding JSON data: Control character error, possibly incorrectly encoded"

any ideas?

Hello,

Update the module to v. 1.11.9.

Regards,
ARI Soft
