Issue with HWD-Videos in Lightbox

Posted by DanielSw2 - 2010/08/01 16:41
_____

Hello,

as you know we're using your Lightbox to display our HWD Videos.
It worked very well but since a few days we have an issue with the lightbox. The background is white instead of black.
See here: http://simway.net/sims3-luxus-accessoires-videos

Thank you.

Best Regards,
Daniel

Hello,

If you use 'ARI Sexy Lightbox' module specify background color in module settings. If you use 'System - ARI Sexy Lightbox Anywhere' plugin, add bgColor="#000" attribute to {arisexylightbox} tag.

Regards,
ARI Soft

We use the Plugin:

{arisexylightbox activeType="icontent" width="735" height="460" link="Show video" title="Die Sims 3 Luxus-Accessoires Trailer"} {link}
 Trailer{/link} {content}   {hwdvideoshare}id=102|width=725|height=425{/hwdvideoshare} {/content} {/arisexylightbox}

And since a few days it works perfect and we don't want to add a tag to every video. There must be an other issue.

_____

Download and re-install 'System - ARI Sexy Lightbox Anywhere' plugin. Updated version of the plugin contains new parameter 'Background color'. Open plugin settings page and define default background color.

Regards,
ARI Soft
